

The logo for Fish Views features a large, stylized, curved shape that transitions from a light green at the top to a dark blue at the bottom. The word "Fish" is written in a bold, dark blue sans-serif font, and "Views" is written in a bold, light green sans-serif font, both positioned within the curve of the shape.

Welcome to FishViews

The screenshot displays the FishViews web application interface. The main view is a 360-degree panoramic image of the North Fork Stillaguamish River, showing a rocky riverbed and dense green forest on the banks. In the top left corner, there are logos for the Stillaguamish Tribe of Indians and the Stillaguamish Watershed Council. The top right corner features navigation links: HOME, TOURS, SIGN IN, and CONTACT US. Below these links, there are buttons for TAGS - 27 and DATA - 0. A map overlay on the right side shows the current location on a satellite map with a blue line representing the river and several green circular markers. A red arrow points to one of these markers. Below the map is a data table for the selected object.

The Stillaguamish River

The screenshot displays the FishViews web application interface. On the left, a photograph of the North Fork Stillaguamish River is shown, with a dense forest of green trees along the bank and a large pile of driftwood in the water. The top left corner features the Stillaguamish Tribe of Indians logo and the Stillaguamish Watershed Council logo. The top right corner has a navigation menu with links for HOME, TOURS, SIGN IN, and CONTACT US. Below the menu, there are two buttons: TAGS - 27 and DATA - 0. A map overlay on the right side shows a satellite view of the river area, with a blue line representing the river and a red arrow pointing to a specific location. The map includes a Layers panel, a search bar, and navigation controls like zoom in (+) and zoom out (-) buttons. At the bottom left, there is a toolbar with various icons for map interaction, including a play button, a grid, a location pin, a document, a ruler, a magnifying glass, a gear, and a question mark. A 'Switch to Mobile Version' link is located at the bottom center. The bottom right corner of the map overlay shows a scale bar for 0.4 miles and the text 'Powered by Esri'.

The Comal River

The screenshot displays a web application interface for "COMAL RIVER, TX". The main view is a satellite image of a river with a bridge on the left and dense green trees on the right. A "Fish View" icon is in the top left. A "Texas River Fest" logo is in the top left corner. A navigation menu at the top right includes "HOME", "TOURS", "SIGN IN", and "CONTACT US". Below the menu are buttons for "TAGS - 24" and "DATA - 0". A map overlay on the right shows a blue line representing the river with a red arrow pointing to a specific location. A "Layers" panel is visible above the map. At the bottom right of the map, it says "TX Orthoimagery Program, USDA FSA, DigitalGlobe, GeoEye, G... Powered by Esri".

The Snoqualmie River

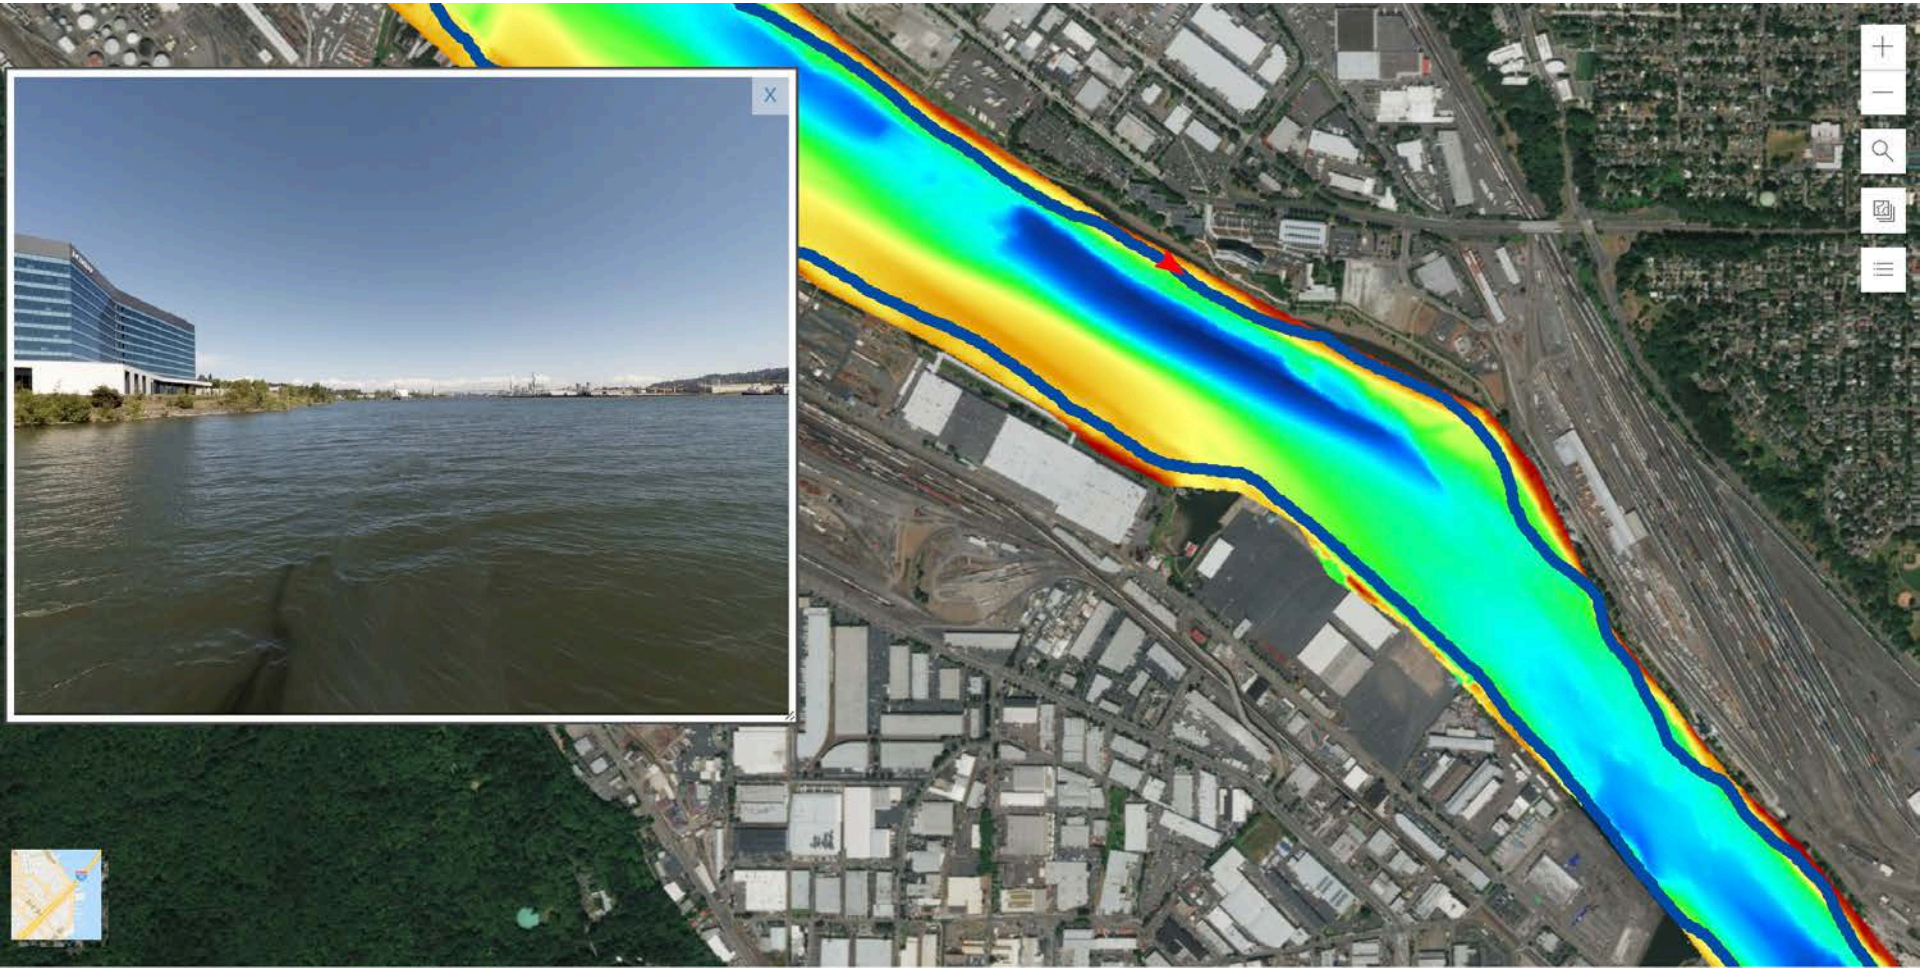

The screenshot displays the ArcGIS FishViews interface. On the left, a video shows a riverbank with dense green trees and a small blue information icon on the shore. An inset in the bottom-left corner provides an underwater view of the riverbed, showing green algae and rocks. The top-left corner features the King County logo. The top-right corner shows the title 'SNOQUALMIE RIVER, WA' and navigation tabs for 'HOME', 'TOURS', and 'FISHVIEWS'. Below these are buttons for 'TAGS - 80', 'DATA - 1', and 'MY ITEMS'. The right side of the interface shows a map of the river with a colored path (red, orange, yellow, green, blue) and a red arrow pointing to a specific location. A data table is visible at the bottom right of the map view.
