AGENDA

1.	Roll Call and General Updates	1:00 Jay Davis

3.	Sampling Design for Rivers and Streams The Roundtable expressed strong support for performing a statewide survey of contaminants in sport fish from rivers and streams, so it's time to begin discussion of the sampling design. A Powerpoint laying out a preliminary sketch of a plan is attached (including maps of an initial list of sampling locations), along with a Google Earth file and an Excel file showing candidate locations. If you don't have access to Google Earth, you can just look at the maps in the Powerpoint. Please look over the proposed list of locations for your region and bring any feedback to the meeting on Tuesday. Any other feedback on the Powerpoint is also welcome. Desired Outcome: Progress in fleshing out sampling design, especially the management questions and population of locations to be sampled.	1:20 Jay Davis, Autumn Bonnema
4.	Wrap-up, plans for next meeting	3:25 Jay Davis
