

California Water Quality Monitoring Collaboration Network Participant:

Join the California Water Quality Monitoring Collaboration Network and Southern California Coastal Water Research Project's Donna Ferguson, from your own workspace for a 1-hour Webinar session on Microbial Source Tracking. The webinar will be on March 24, from 11:30 AM -12:30 PM. Please see the instructions below to join the webinar.

Donna Ferguson:

Donna Ferguson is a microbiologist specializing in infectious diseases, water quality, and epidemiology. She received her B.S. in Microbiology from California State University Long Beach and her M.S. in Epidemiology from UCLA. Currently Donna works with SCCWRP. She has conducted Microbial Source Tracking (MST) type studies in two local drinking water watersheds (Castaic and Silverwood Lakes), on a MST study in the San Juan Creek watershed and currently is working on a MST study at Malibu. Donna is also co-authoring a chapter on naturalized fecal indicator bacteria for a MST textbook that is currently being written by MST experts worldwide.

This Webinar will focus on how to identify potential sources of sewage contamination through microbial source tracking.
