

California Water Quality Monitoring Collaboration Network Participant:

Join the California Water Quality Monitoring Collaboration Network and the Central Valley Regional Water Quality Control Board's Alisha Wenzel from your own workspace for a special Webinar session, "Central Valley Regional Water Quality Control Board's Safe to Swim Program". Please join us on Thursday October 18, 11:30 AM -12:30 PM. Please see the instructions below to join the webinar. To watch the presentation "join the online meeting" and to hear the meeting "call the teleconference", as we use voice over phone protocol.

Central Valley Regional Water Quality Control Board's Safe to Swim Program

Since 2007 the Central Valley Regional Water Quality Control Board's Safe to Swim Program has conducted a series of Safe to Swim studies focused on swimming holes in creeks, rivers, and springs throughout the Central Valley. Staff coordinated with over twenty citizen monitoring groups to identify swimming holes throughout the valley and foothills. For monitoring groups that were interested, staff provided training and supplies so these groups could participate in the program and collect samples. These partnerships have enabled the Water Board to expand the number of swimming holes monitored. The program uses *E. coli* as a pathogen indicator to assess swimming safety. More targeted efforts have also monitored for specific pathogens in the swimming holes. Initial findings from the 2012 swimming season will be presented during the talk. www.waterboards.ca.gov/centralvalley/water_issues/swamp/r5_activities/index.shtml

Alisha Wenzel works in the Ag & Surface Water Assessment Unit at the Central Valley Water Board. She is the regional coordinator for the Surface Water Ambient Monitoring Program (SWAMP). For more information about the Central Valley SWAMP visit www.waterboards.ca.gov/centralvalley/water_issues/swamp/index.shtml

Meeting information

Topic: CWQMCN Webinar
Date: Thursday, October 18, 2012
Time: 11:30 am, Pacific Daylight Time (San Francisco, GMT-07:00)
Meeting Number: 749 993 662
Meeting Password: wqwebinar

To start or join the online meeting

Go to

IMPORTANT NOTICE: This WebEx service includes a feature that allows audio and any documents and other materials exchanged or viewed during the session to be recorded. You should inform all meeting attendees prior to recording if you intend to record the meeting. Please note that any such recordings may be subject to discovery in the event of litigation.

We have set up a webpage for the California Water Quality Monitoring

Collaboration Network (CWQMCN) at:

www.waterboards.ca.gov/water_issues/programs/monitoring_council/collaboration_network/index.shtml

Webinar materials (if available), all past webinars (recordings and pdf's) will be posted on the website. The recorded webinars and associated materials are located under 'Monthly Webinars'. We hope to use this webpage to help you network with each other and with the larger monitoring community. So, feel free to give us your ideas on how to make it better.

CWQMCN Emails:

New participants can join the webinar listserv by signing up on the web at:

www.waterboards.ca.gov/resources/email_subscriptions/swrcb_subscribe.shtml.

Enter your email address and name, place a check mark next to "Water Quality

Monitoring Collaboration Network - Webinar Sessions", then click the "subscribe" button.

California Water Quality Monitoring Professional Network :

Share technical and support tools for water quality monitoring, assessment and reporting; Encourage discussion on common concerns like information management and program development; Provide a forum for networking and collaboration. This LinkedIn Group, California Water Quality Monitoring Professional Network, compliments the California Water Quality Monitoring Collaboration Network (CWQMCN) and was created so that water quality monitors and Network members would have the ability to further collaborate and communicate outside of the current CWQMCN Webinar series and emails If you are a member of LinkedIn please join the group. Not a member yet? Please consider doing so and joining this group of water quality monitoring professionals, www.linkedin.com
