The group discussed strategies for incorporating the watershed report card results from San Diego and Central Coast (presented at the 1/16/14 meeting) into the Healthy Streams Portal. Jon M. reminded the group that the Monitoring Council has directed the work groups to avoid small scale or regional datasets and to focus on datasets with statewide coverage. The group decided to review the Healthy Streams Portal mock up that was developed several years ago to evaluate how to enhance the existing portal to include results of the CA Integrated Assessments and report card efforts. The group also discussed the need to identify funding for this effort.

Wrap up

The next HSP meeting is scheduled for May 23, 2014 from 9:30 am – 12:00 pm. The agenda will include a discussion on strategies for expanding the Healthy Streams Portal.
