

SWAMP Inland Beaches Workgroup Meeting Agenda
May 25, 2016 10:00 - 11:30AM

Attendees:

1) **Discussion item from last meeting:** Displaying inland bacteria data – Socrata open data portal

Discussion led by Greg Gearheart

2) Inland beaches workgroup information addition to workgroup webpage:

http://www.mywaterquality.ca.gov/monitoring_council/swim_workgroup/index.html

- Layout: currently one page for coastal; last meeting discussion of have a single “homepage” for both coastal and freshwater to house communal information (ex. new Bacteria Objective). Have two separate webpages for specific information for coastal and freshwater
- Content: Last meeting thoughts included potential directory of citizen monitoring groups; “what can you do as an individual?” to connect folks to local citizen monitoring groups; links to USEPA analytical methods; tools (YouTube videos for sampling, Clean Water Team webpage materials, etc.); workgroup agenda and notes

Discussion led Jon Marshack/Group

Sub-group volunteers from last meeting: Alisha, Jon, Marisa, Carly

3) Outreach

- Have a meeting and include safe-to-swim lyrics lists to inform them of this workgroup?
- How can Monitoring Council help?

Discussion by Group

4) Source tracking internal wiki

- Draft template for project managers to add information on MST projects they are managing: workgroup to comment and pass to SWAMP coordinators for comment?
- Wiki will include references and reports

Discussion by Carly Nilson/Group

5) SWAMP Roundtable work plan and due dates

Discussion by Lori Webber
