### BACKGROUND

Mike Connor  
*Publicly Owned  
Treatment Works*

In November 2007, a [Memorandum of Understanding \(MOU\)](#) was signed by the Secretaries of the California Environmental Protection Agency (Cal/EPA) and the California Natural Resources Agency to establish the California Water Quality Monitoring Council (Monitoring Council). The MOU was mandated by [CA Senate Bill 1070 \(Kehoe, 2006\)](#) and requires the boards, departments and offices within Cal/EPA and the Natural Resources Agency to integrate and coordinate their water quality and related ecosystem monitoring, assessment, and reporting.

### Monitoring Council Staff

Jon Marshack  
*Executive Director*

Kristopher Jones  
*Assistant Director*

Monitoring Council members include representatives from Cal/EPA, the Natural Resources Agency, the Department of Public Health, citizen monitoring groups, regulated publicly owned treatment works, stormwater, agriculture and water supply interests, the scientific community, and the public. The Monitoring Council is also required by SB 1070 to consult with the U.S. Environmental Protection Agency, whose representative attends all Monitoring Council meetings.

SB 1070 and the MOU require that the Monitoring Council develop specific recommendations to improve the coordination and cost-effectiveness of water quality and related ecosystem monitoring and assessment, enhance the integration of monitoring data across departments and agencies, and increase public accessibility to monitoring data and assessment information. While the Monitoring Council may recommend new monitoring or management initiatives, it will build on existing efforts to the greatest extent possible.

SB 1070 and the MOU require that the Monitoring Council, in coordination with the State Water Resources Control Board, recommend a “comprehensive monitoring program strategy that utilizes and expands upon the state’s existing statewide, regional, and other monitoring capabilities and describes how the state will develop an integrated monitoring program that will serve all of the state’s water quality monitoring needs and address all of the state’s waters over time.” Those [recommendations](#) were submitted to the Agency Secretaries in December 2010.

## MEETING PURPOSE AND DESCRIPTION

The purpose of this meeting is for the Monitoring Council to plan further implementation of their recommended monitoring program strategy and to develop additional recommendations to Cal/EPA and the Natural Resources Agency. Meeting topics will include:

- Announcements and Updates:
  - New Monitoring Council Member and Alternate
  - Monitoring Council Governance changes for Drinking Water Program
  - Potential workgroup for harmful algal blooms (HABs) and cyanotoxins
  - Monitoring Council Meeting dates for 2015
- Developing recommendations for water quality improvement projects
- Delta Stewardship Council, Data Summit White Paper
- Data Visualization – EcoAtlas and San Joaquin River Portal
- Triennial Audit Report
