

# AB 1755: Opportunities for Coordination

Kris Jones

# AB 1755

- 1) DWR must create, operate, and maintain a statewide integrated water data platform
- 2) DWR must work in consultation with:
  - California Water Quality Monitoring Council
  - State Water Resources Control Board
  - California Department of Fish and Wildlife

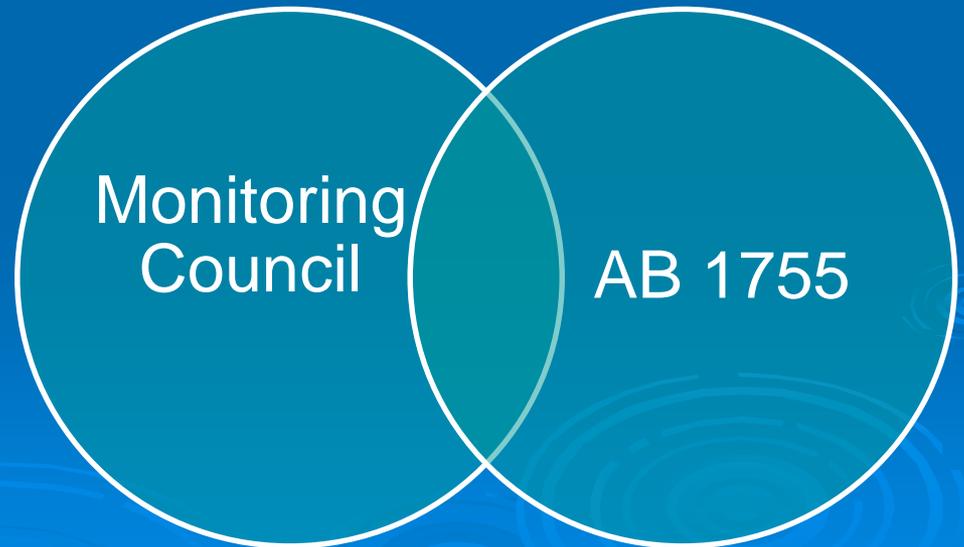

# High Level Goals

## Monitoring Council

- Data Access
- Standardization and data interoperability
- Data visualizations and interpretation
- Coordination of monitoring efforts

## AB 1755

- Data Access
- Standardization and data interoperability

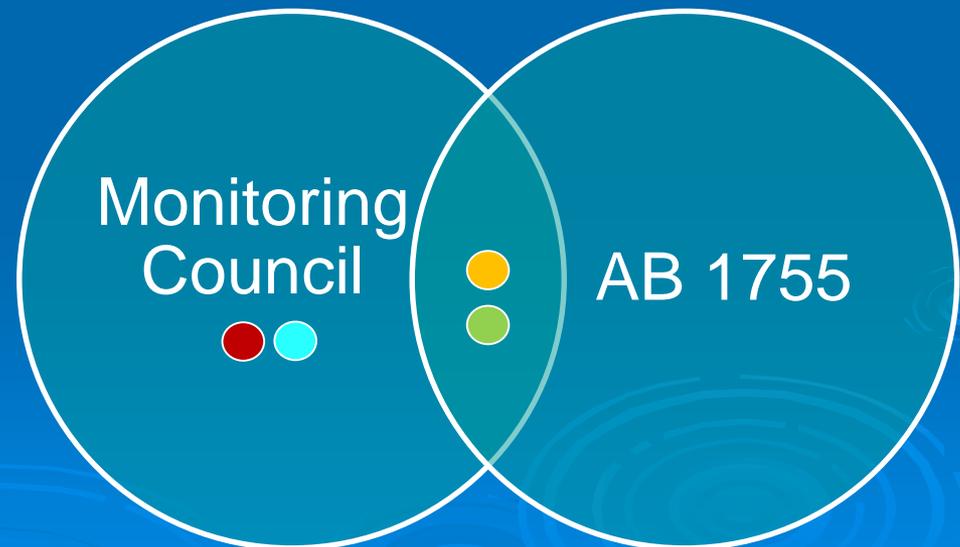

# High Level Goals

## Monitoring Council

- Data Access
- Standardization and data interoperability
- Data visualizations and interpretation
- Coordination of monitoring efforts

## AB 1755

- Data Access
- Standardization and data interoperability

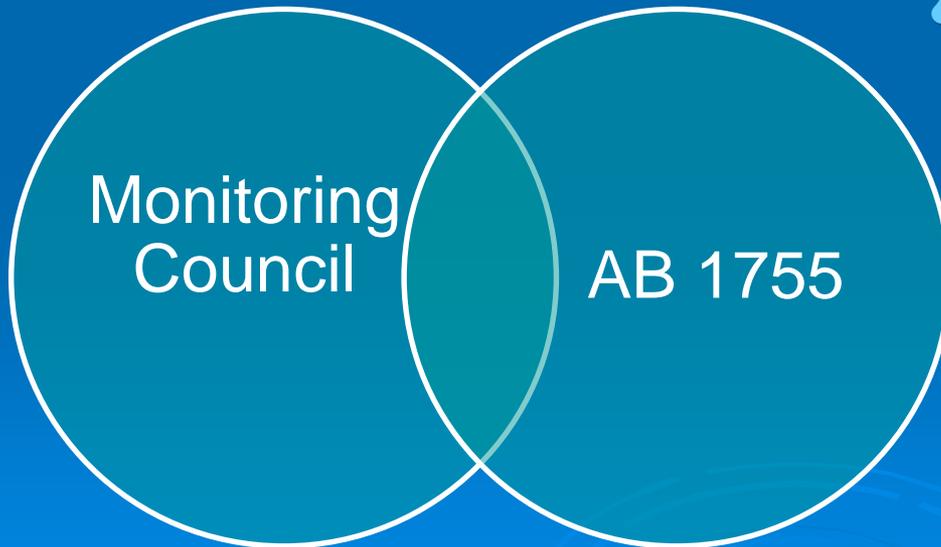

# Data Types and Sources

## Monitoring Council

- Water/Ecological Data
- State agencies (initially)

## AB 1755

- Water/Ecological Data
- Data on completed water transfers and exchanges
- State, federal, local and academia

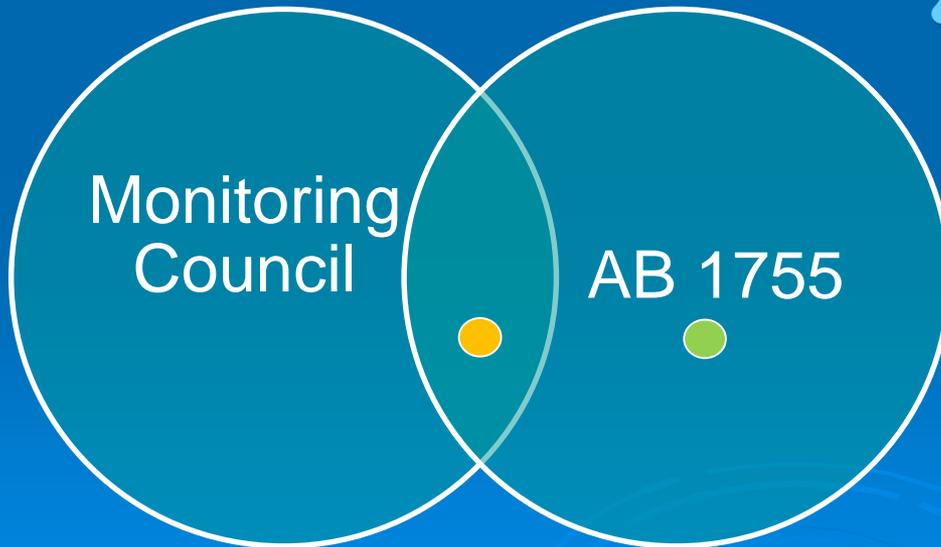

# Data Types and Sources

## Monitoring Council

- Water/Ecological Data
- 💧 State agencies (initially)

## AB 1755

- Water/Ecological Data
- Data on completed water transfers and exchanges
- 💧 State, federal, local and academia

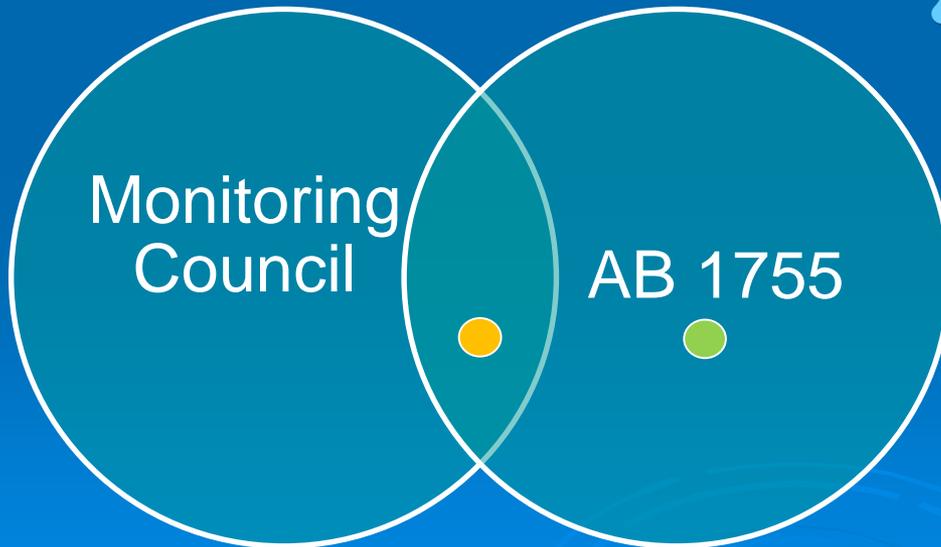

# Data Types and Sources

## Monitoring Council

- Water/Ecological Data
- 💧 *State* agencies (initially)

## AB 1755

- Water/Ecological Data
- Data on completed water transfers and exchanges
- 💧 *State, federal, local* and *academia*

# *Opportunities Moving Forward*

---

- Given our similar goals—e.g., data standardization and data access—what opportunities exist for collaboration?
- How can we better coordinate existing workgroups (e.g., Steering Committee and Data Management Workgroup)?
